RTS Wireless Smart Metering Network Model Line timetable Railway Mobility Model Railway line represents the dynamics of physical particular of the property of the pro train movement on a line characteristics ex: lenght, stations, traction substations

Wired/Wireless Network Libraries of Models

library library Core Traffic Control library Layer library Network 6LoWPAN library module Antena library Morary Energy Wi-fi module library 802.15.4 Router module library library TCP/IP Ibrary library Mobility Applications

Sensors Setup

- max data-rate
- maximum energy consumption
